

- 9:00 – 9:20am**      **Welcome and Seminar Introduction – Keith Ammons, NATF Board**
- 9:20 – 9:50am**      **Keynote Address – John Bowman, Flint Hills**  
John will share with us his experience with TETRA, and how well the solution is working for Flint Hills.
- 9:50 – 10:15am**      **TETRA Installation and User Training – Christian Reynolds, Nielson Networks**  
Christian will present the selected hardware, share some installation details, and discuss user training and system maintenance.
- 10:15 – 10:45am**      **TETRA in North America – Rick Nielson, Bay Electronics**  
Rick will share how TETRA made its way into North America
- 10:45 – 11:00am**      **Break**
- 11:00 – 11:30am**      **Spectrum Regulatory Affairs – Mark Crosby & Robin Cohen, EWA**  
The Enterprise Wireless Alliance, the leading advocate for business/industrial/land transportation users of private wireless spectrum, will discuss current regulatory affairs that impact TETRA deployments. EWA will also cover TETRA licensing techniques.
- 11:30 – 12:00pm**      **TETRA for Mass Rapid Transit in Singapore – Bill Fredrickson, Selex**  
TETRA is widely used around the world in the transportation industry. Bill will present a case study on how TETRA solves these technological challenges.
- 12:00 – 12:45pm**      **Lunch Break**
- 12:45 – 1:15pm**      **TETRA for Utilities: Diverse Power – Keith Ammons, PowerTrunk**  
Utilities provide highly essential services on a daily basis, and in many cases can even be considered as "First Responders" in the event of natural disasters and other types of emergencies. Utilities therefore require "mission critical" grade communication systems in support of many aspects of their daily operations and for disaster recovery.
- 1:15 – 1:45pm**      **Data Applications and Special TETRA Solutions – Stephanie Piciorgros, Piciorgros**  
TETRA is a digital radio solution, and supports both voice and data transport. Stephanie will explore how easy data transport is over TETRA networks.
- 1:45 – 2:00pm**      **Break**
- 2:00 – 2:30pm**      **TETRA at the Airport – Rich Davis, Rockwell Collins**  
Rich will present a case study of our first TETRA implementation at LAX and why we selected TETRA as the technology of choice.
- 2:30pm**      **Open Discussion – NATF**  
We welcome the audience to ask questions and discuss TETRA topics.
- Afterwards**      **FHR TETRA Tour**  
Join us for a tour of the TETRA equipment installed at FHR.
